## Q. How can Viridian save customers money?

Due to energy deregulation, customers can choose an alternative supplier like Viridian who can buy energy wholesale from competitive generators and pass the savings along to customers. The utility still provides delivery, service and billing.

The funds generated from this program will support our overall mission or any other projects we are working on.

## Q. Why did our organization choose Viridian over other suppliers?

## Q. Will it cost me anything extra to help our organization?

No. This fundraising opportunity allows our organization to earn income simply by referring customers to Viridian. As a customer, you may actually save money over time on a service you are already using and paying for.

## Q. What will change when I enroll?

You won't notice any change except Viridian's name listed as your supplier and Viridian's rate per kilowatt hour under the supply section of your bill. The bill will still come from the utility and the lights will still turn on just like they always have. You still pay your bill to the utility and they will still repair, maintain and provide emergency response.

## Q. What do I need to enroll?

Just your basic contact information and utility account information from your bill. (see bill samples above)

Variable rate customers have a month-to-month term of service and can cancel at any time. Fixed rate customers agree to a specific duration of service and are subject to an early termination fee if they wish to cancel before the end of the contract.

## Q. Will I get a separate bill?
